

Welcome to the Federal Work-Study Program

This is a great opportunity to...

- Earn money
- Perform community service
- Gain valuable career-related work experience

With Federal Work Study as part of your financial aid packet, you can earn money to meet your college expenses while gaining valuable work experience. Jobs can be located on- or off-campus and many are career-related or community-service oriented. Employers benefit because they pay only 25 percent of your salary, while federal funding covers 75 percent.

You must have documentation of your FWS clearance to present to potential employers. You can use your financial aid award notification letter, or print a copy of your award using our website (see back for instructions).

For more information, contact Amy Martin, Work-Study coordinator, amy.martin@humboldt.edu, (707)826-5455.

On-Campus Jobs

- Listings:** You can view jobs on-line (see back of this page for instructions on finding jobs on-line). If there is a specific on-campus department you would like to work for that isn't listed, we recommend you contact the department directly.
- Pay Rate:** Campus pay rates are set by the Human Resources Office. A copy of the current pay schedule and pay rates is on-line at hraps.humboldt.edu/student-assistant-recruitment. It is the responsibility of your department to record the hours and adjust pay rates at the proper time.
- When You Get Hired:** Before you can work on campus, you need to complete a Student Payroll Action Request (SPAR) and an Employee Eligibility Verification (I-9) form. These forms are available from the hiring department. You must show two forms of I.D. when you turn these forms in at Human Resources. You may pick up your paycheck at the Cashier's window in the Student Business Services Building on the 15th of each month.

Off-Campus Jobs

- Listings:** Look on-line for off-campus jobs (see back of this page for instructions). These positions offer opportunities to work out in the community at schools, government agencies, and non-profit organizations. You can also find career-related positions with for-profit companies.
- Pay Rate:** Pay rates for off-campus jobs are determined by the employer according to industry standards.
- When You Get Hired:** You must meet with the work-study coordinator before beginning work with an off-campus employer. The coordinator will make sure all appropriate paperwork is complete, explain procedures, and answer questions. You will be paid directly by your employer according to their regular pay schedule.
